Power Plant Ready to Furnish
Ishock Power

The dawn of the Young Harris Power Co., which was completely developed but destroyed by a summer flood, has been reconstructed by the citizens of Young Harris and community is just outside of the light of the power line completed and in excellent condition, new copper wires of correct voltage being used throughout the line. The citizens who use this current in their homes should go over the lighting circuits, which might prevent fire, the wires having been exposed for that some of them might be exposed.

The generator for this plant has been lost for sometime on the road, but has at last reached Young Harris, and the plant will be ready to furnish lights immediately. This will add considerably to our town as well as to the several districts within reaching it. Mr. O. J. Townsend, who has been in charge of the repair work, says he feels quite sure that the high-water cannot break this system. It was out of order last summer when it was burned by the floods.

Over Six Million
Unable to Read in the U. S.

In our free America there are many million people who are unable to read. In a double line of march at intervals of three feet, those six million literates would extend over a distance of 16 miles across the continent. Marching at the rate of 25 miles a day, it would require them to pass a school of the nation's schools, blackboards, desk, and books, one blackboard, one desk, and one book each. The present of legislative bill was passed which virtually empowers the school board to do the necessary work of providing teachers, school buildings, and equipment to make all appointees eligible. All the appointees must have passed the examination which is now being conducted.

Head of Highway Board to Control All Appointments

From the Insurance Convention
During the convention on the function of the insurance companies and the composition of the legislature a bill was passed which virtually empowers the school board to do the necessary work of providing teachers, school buildings, and equipment to make all appointees eligible. All the appointees must have passed the examination which is now being conducted.
**Chesterfield Cigarettes**

Taste is a matter of tobacco quality

We state it as our boldest belief that the tobacco from Chesterfield field are of highest quality and hence of best price. No other cigarettes have the same patents and labels as Chesterfield. No other cigarette is completely protected by over 50 patents. The paper which the latest Chesterfield are wrapped in will be found on any other cigarette at the price.
