WHY SHOULD LIGHT COME MUST PAY FOR THE PAPER FROM THE LEFT SIDE.

Judge George Toumaz, Colorado, Neb., recently decided that if a man accepts a paper that is sent to him, he must pay for it.

The decision was rendered in the case brought by the Colorado Neda to the court of a man who had sent a man to the home and had accepted it.

When called upon for pay it was refused and the judge held the old custom to that effect. What, Joseph, the judge held the evidence in the case and that the old custom to that effect was made.

Mr. Collins will have a successor in that case. Mr. John E. Reid, Republican, was declared.

Industry, Enterprise, and Progress (San Francisco: London Publishing Company, 1918)

On the occasion of the celebration of the 50th anniversary of the American Institute of Mining Engineers, the following address was delivered by Mr. W. H. Masquelier, President of the Institute:

December 25, 1918

To the Members of the American Institute of Mining Engineers:

Mr. President, gentlemen and ladies:

It is a pleasure for me to address the American Institute of Mining Engineers at this celebration of the 50th anniversary of the Institute.

Since the foundation of the Institute in 1868, progress in the art of mining has been steady and continuous.

In 1868, the mining industry was in its infancy, and the engineers of that time had to depend largely on their own ingenuity and experience.

Today, the mining industry is one of the most important industries in the world, and the engineers of today are equipped with the most modern knowledge and tools.

The Institute has played an important role in the development of the mining industry, and I am proud to be a member of its ranks.

Thank you.
