The editor extends thanks to Messrs. Gibson & Homes for recent favors.

Mr. John McConnell, of Gainesville, spent a few days in Hiawassee last week.

Miss Janey Coffee returned Sunday from a visit to her uncles on Brass-town.

Solicitor General, Howard Thompson, Gainesville, spent last Friday night in town.

The Wilbanks building is almost completed and adds greatly to the appearance of the town.

Prof. White has returned from Athens where he has been attending at Normal School for two weeks.

If you are an aspirant for some office let the people know it by announcing your name in the columns of the beautiful valleys of our merry county paper.

The first and second numbers of the "Hayesville Times" has reached our office and is a newsy little sheet. Long may it live and prosper.

Miss Fannie Jakson, of Gainesville, has returned to Hiawassee and taken her position as one of the faculty of the Hiawassee High School.

Mr. T. E. Chandler and wife, (nee Miss Minnie Brown,) of Lavonia, Ga., are expected in Hiawassee in a few days where they will spend some time with relatives and friends.

Charles who lives in Clay county, near Hayesville, had a mule to die of hydrophobia a few days ago. The mule was bitten by mad dog which passed through the country about three months ago.

Mr. J. Miles Berrong, one of our most popular townsmen, has called in several times to see how the TIMES was progressing, also to give us two subscriptions for one year. He seems to have the welfare of the town at heart more than any man with whom we have talked, and if we had a few more like him Hiawassee would soon awake from the Rip Van Winkle slumber and become the hustling little city she deserves to be.

One of the jolliest parties of pleasure seekers we have come in contact with for some time, stopped in town last Friday night with Squire Brown and lady. The party were Misses Boyce, Hattie, Mollie and Rosie Suddeth, and T. N. and S. N. Suddeth, of Banks county. They spent several days with R. N. Penland, of near Elf, N. C., after which that gentleman and another party of young folks joined in with them and went out to Buck Creek where they played havoc among the finny tribe.

## SALUTATORY.

To the citizens of Towns county and the surrounding country, THE TIMES makes its most polite bow, with the fond and earnest hope that it may be given a hearty welcome and admission into each and every household. (Not only do we ask, but naturally expect,) a liberal amount of patronage from each citizen of the county, but those of the surrounding country who have the development of our grand and noble section at heart.

It will be our earnest endeavor to conduct a paper for the whole people—devoted to the upbuilding of our section and advocating our advantages continually until we shall have taken our position among the foremost of the progressive industrial sections of the south.

To this end, that the world may see and know of us; and that they may be told of our

sparkling streams" a crystal water gleefully leaping over rocks and pebbles at shoals, of delightful climate where the glorious southern sun ever shines casting rays of brightness over all, and where the soft and gentle mountain breezes steal over the valleys cool and refreshing; of our inexhaustible mineral wealth hidden within our hills and mountains. To this end, we say, THE HIAWASSEE TIMES makes its appearance and to this end, we say to our people, we shall unceasingly and untiringly labor.

In answer to a question that has already been asked more than once, "will it be a Republican, Democratic or Third-party paper?" we answer neither one. While we are in sympathy with Democracy, in politics THE TIMES shall be strictly neutral, favoring neither side nor faction, but giving the news in a clear and concise manner "unawed by power and unbribed by gain."

With these ends in view we have no hesitation in asking the undivided support of our people in crowning our efforts with success in making THE TIMES a first-class newspaper in every particular.

Mr. James E. Ledford called on the TIMES Monday and subscribed. He is one of our most promising young men.

Mr. J. A. Dayenport wants people to subscribe for THE TIMES and learn the news of Hiawassee without bothering him. Good idea this.

Messrs John Erwin and Lon Webb, of Young Harris, Will Holmes and Warne Hedden, of this place, went out to Tallulah river on a fishing expedition last. They report good success.

The Hiawassee High School opened up for another years work on the 1st inst. under very flattering circumstances. About 85 were enrolled on the first morning and a great many have entered since.

J. M. HACKNEY.

Mr. Sellers and T. W. Gibson accompanied by their ladies visited the TIMES office one day last week. We appreciate visits, very much, and want them to come back some time when we are grinding out the news.

Sheriff Burch made a trip to Mill-edgeville recently for the purpose of taking Mary Wilson to the asylum, she having been adjudged insane.

The big revival meeting which has been going on at the Methodist church at Hayesville for the past two weeks or more closed last Thursday. In all there were about thirty converted to Christ and a number generally revived. We are glad to hear of the good work going on so near us and truly hope its effect may be seen and felt for years to come.

REAL ESTATE AGENTS

HIAWASSEE, TOWNS COUNTY, GA.

Now is a most excellent opportunity for investments in reality in this section. Such investments is sure to yield a most handsome profit. Besides this, our town and its environs offers unparalleled advantages to home-seekers.

At an altitude of 2400 feet, completely surrounded by a chain of towering mountains, continually refreshed by gentle and soothing breezes in summer and warmed by the bright southern sun in winter, we have a climate unsurpassed. With water clear and delicious, mountain scenery grand and gorgeous and an atmosphere free from malaria, or other climatic disease, our section is destined to become a much sought after resort.

Hiawassee itself is a most picturesque little town, situated nearly in the center of the great Mineral Deposits, whose walls are mountains, some of which rise to over 5000 feet high. The town is well shaded and is a most beautiful site. The surrounding country has a great deal of most excellent agricultural land, some under cultivation and some in woods. For stock raising it has no superior.

Now is the time to buy. At once! Don't wait but write or come to see us. We have everything in the real line from a house and lot to fifty thousand dollar nickel and manganese mine.

Here are a few of the bargains listed with us. Read them: Titles to all property absolutely good.

Mr. S. J. Osborn, a leading citizen of the county came into our office recently and had his name enrolled for year. Other good citizens should follow the good example he has set.

If there is any one who has visited the office that we have failed to make mention of this week it is only because our space will not admit. Come back and bring a dollar with you.

Mrs. Jeff Martin, of Hayesville, spent a day in town this week the guest of Squire Brown and lady. She was up making arrangements to move here, temporarily, for the purpose of putting her children in school.

John H. Davis, a big hearted young man who is teaching a school near Campagne, called on THE TIMES recently and had us place two yearly subscriptions on our books, one for himself and the other for—well it don't matter who.

The editor of THE TIMES had the pleasure of paying Hayesville a visit last Saturday. He found that little city full of life, energy and enterprise. The citizens of that place have just succeeded in having their paper revived and are now talking of having a telephone line erected between that point and Murphy, and also improving the public road. In fact the future for Hayesville is brightening up considerably.

Mr. J. T. Kimsey, who has been a merchant of this place for some time, has moved his stock of goods into the country a few miles above town. We, (the citizens not the merchants) regret losing him but wish him much success in his new location.

Mr. O. C. Wyly called in the other evening to see The Times. He did not subscribe then, but he is one of our most enterprising, progressive citizens and if he does not subscribe for 3 or 4 copies of the TIMES, we have sized him up entirely wrong. We have heard him prominently mentioned in connection with the race for representative, and should he be the one selected the choice would be an excellent one.

### WINN AND PICKETT.

#### Both Nominated in the Ninth—A Bad Split.

The People's party which has been trying to nominate a Congressman in the Ninth for two months has not only succeeded in doing that, but more, they have nominated two men for that position; the party is split and it looks as though Hon. C. E. Tate was going to have a walk over.

The two candidates before the convention were, Thomas E. Winn, the present incumbent, who summersaulted into the Third Party, a short time ago, and Thad Pickett, an old time Third-partyite.

In the convention at Gainesville last week, some of the Pickett delegates were ruled out, whereupon the entire Pickett delegation bolted the convention in a body.

The Winn faction remained and nominated their man. He received eighteen votes.

The Pickett faction organized in the Hunt House and nominated their man. He also received eighteen votes.

Both sides declare their favorite the regular nominee and are whetting their knives for each other.
